Are you new to the field of after school, summer camp, or out of school time programming? Or are you looking for an opportunity to refocus your out of school time program lens? The OST Orientation training is for those who work in out of school time programs that serve children ages 5-12. This interactive session offers an overview of the OST field and provides supportive resources for building, maintaining, and working in an OST setting. The session includes the key elements of a successful school age program, and how to be a key player in supporting positive development of children and youth.
